Additional information

On a personal level we are looking for a colleague who shares our values.

Customer Centricity: the users of our software are the reasons for our existence. Answering their needs is what we do.

Open minded: We're not afraid of questioning ourselves in order to grow and evolve.

Cooperation: We are all part of the bigger picture and look beyond our personal interests.

Innovative thinking: We keep our eyes open and are on top of the newest changes in the world of technology. Our company creates space for every employee to experiment and discover new possibilities and opportunities.
